

March 21, 1980

LB 743

so much.

SENATOR LEWIS: I appreciate your work on it.

SPEAKER MARVEL: Okay, the unanimous consent request by Senator Keyes to withdraw his motion to 743, any objection? So ordered.

CLERK: Mr. President, Senator Haberman moves to return the bill for a specific amendment.

SPEAKER MARVEL: Do you want to read the amendment?

CLERK: Mr. President, the Haberman amendment is on page 1345.

SENATOR HABERMAN: I move to return the bill. Mr. President, would you want me to explain the amendment at this time?

SPEAKER MARVEL: Yes.

SENATOR HABERMAN: The amendment puts the new car dealers on new automobiles that they do have to have an inspection sticker in the automobile if it is used on the roadway. It will be a temporary sticker type that will be in the automobile. It will not be attached to the windshield but it will show that this vehicle has been inspected and does conform and it will be inspected by a regular inspection station. If we do not adopt this amendment, there is the possibility that the entire Nebraska vehicle inspection program will go down the tube because there is a court suit on at the present time to declare that it is unconstitutional because new car dealers and their families and the vehicles are exempt. The New Car Dealers Association and John L. Sullivan have asked that this amendment be attached to the bill as they do not wish in any way to interfere or harm the Nebraska inspection service program. As I am informed, we have one of the best in the United States. I respectfully request that you return the bill to Select File for adoption of this amendment.

SPEAKER MARVEL: Senator DeCamp, do you wish to respond to the Haberman amendment?

SENATOR DeCAMP: I support the amendment. I think it resolves litigation and a problem of our statutes and needs to be done. I think it is a simple solution.

SPEAKER MARVEL: Senator Wesely.
